- 38th International Symposium on Lattice Field Theory, July 26 – 30, 2021, ZOOM/Gather@MIT, USA.
Talk: Bulk-preventing actions for $SU(N)$ gauge theories.
- CSC (IT center for science) GPU - Hackathon 2019, October 16 – 18, 2019, Espoo, Finland.
- SIGN 2019, September 2 – 6, 2019, Odense, Denmark.
- Advances in Lattice Gauge Theory, July 22 – August 9, 2019, CERN, Switzerland.
- SIGN 2018, September 10 – 14, 2018, Bielefeld, Germany.
- Fire and Ice workshop: hot QCD meets cold and dense matter, April 3 – 7, 2018, Saariselkä, Finland.
Talk: Finite density on the lattice: problems and (some) solutions.
- Advances in Lattice Field Theory 2018, March 8 – 9, 2018, Zürich, Switzerland.
- Diagrammatic Monte Carlo Methods for QFTs in Particle-, Nuclear-, and Condensed Matter Physics, September 18 – 29, 2017, Mainz, Germany.
- Extreme QCD 2017, June 26 – 28, 2017, Pisa, Italy.
- 35th International Symposium on Lattice Field Theory, June 19 – 24, 2017, Granada, Spain.
Talk: Spin models in complex magnetic fields: a hard sign problem.
- Extreme QCD 2016, August 1 – 4, 2016, Plymouth, UK.
Poster: Towards the $CP(N-1)$ phase diagram: incorporating the topological term into the flux variable formalism.
- 34th International Symposium on Lattice Field Theory, July 25 – 30, 2016, Southampton, UK.
talk: A worm algorithm for the lattice $CP(N-1)$ Model.
- DELTA 2016, April 28 – 30, 2016, Heidelberg, Germany .
Talk: Strong coupling approach to bound states.
- ECT* Workshop on Recent Advances in Monte Carlo Methods, October 5 – 9, 2015, Trento, Italy.
- SIGN 2015, September 29 – October 2, 2015, Debrecen, Hungary.
Talk: Improved mean-field method for lattice QCD at finite density.
- 33rd International Symposium on Lattice Field Theory, July 14 – 18, 2015, Kobe, Japan.
Talk: Lattice simulation of the $SU(2)$ -chiral model at zero and non-zero pion density.
- International Conference on Advanced Numerical Algorithms for Strongly Correlated Quantum Systems, February 23-26, 2015, Würzburg, Germany.
- SEWM 2014 Latsis Symposium , July 14 – 18, 2014, Lausanne, Switzerland.
- 32nd International Symposium on Lattice Field Theory, June 23 – 28, 2014, New York, USA
Talk: QCD with Wilson fermions and an isospin chemical potential at zero and finite temperature.
- SIGN 2014, February 18 – 21, 2014, Darmstadt, Germany.
- Extreme QCD 2013, August 5 – 7, 2013, Bern, Switzerland.
- Fall School 2013 on Advanced Algorithms for Correlated Quantum Matter, September 30 – October 4, 2013, Würzburg, Germany.
- 31st International Symposium on Lattice Field Theory, July 29 – August 3, 2013, Mainz, Germany.
Talk: Euclidean Dynamical Triangulation revisited: is the phase transition really 1st order?
- Cracow School of Theoretical Physics, LIII Course, 2013 Conformal Symmetry and Perspectives in Quantum and Mathematical Gravity, June 28 – July 7, 2013, Zakopane, Poland.
